

License To Kill - Bed Bug Control Preparation Sheet

License-To-Kill has been hired to exterminate the Bed Bug infestation. It is extremely important that you prepare your home or unit as specified. You will need to handle the preparations for your bed bug extermination yourself. If you have incorrectly prepared, your treatment will be compromised.

Move your furniture 18 inches away from the baseboards and walls. Opening anything that is a potential hiding spot for bed bugs.

Empty all desks, drawers and cabinets. Bookshelves should be emptied as well.

Everything that is packed up should be cleaned and thoroughly inspected for bed bugs.

Empty all bedroom closets.

Strip beds of all sheets, pillowcases, mattress pads and blankets. After removal, launder them. After treatment, all mattresses should be placed in a protective cover for one year.

All draperies, blinds, curtains and valences must be removed and laundered.

Vacuum all infested rooms, including the floor, mattresses, bed springs, couches, chairs, closets, shelves, shoes, behind headboards, inside hanging pictures and inside drawers. Discard vacuum bags after use.

Pets must be removed before treatment.

Cover fish tanks with plastic and turn the aquarium pump off, or remove fish from the premises before treatment.

Launder all clothing, bedding, draperies, rugs, stuffed animals and all other fabric material on the hottest setting available. When drying, make sure to dry the items for at least 50 minutes on high heat. After the items have been cleaned, place them into a plastic bag and seal it.

Place all food & dishes in sealed plastic bags.

You may re enter the property 2 hours after the treatment has dried.
